POLICIES ON THE PH.D. PROGRAM IN URBAN AND REGIONAL PLANNING

(adopted May 2003)

C. REQUIREMENTS FOR ADVANCEMENT TO PH.D. CANDIDACY

(Partial requirement – see full document for complete list of requirements)

3. Required Coursework

All doctoral students are required to complete three courses (9 credits) on the structure and processes of cities and regions. These courses shall cover the nature of urban and regional development processes over time and the impact of urban and regional development on the social, economic, environmental, institutional, and physical structure of cities and regions. They should also cover the response of federal, state and local governments to the issues and problems generated by such development and the planner's role in developing public policy and programs to deal with those problems and issues.

Courses satisfying the requirement for this component of doctoral studies must be approved by the student's Ph.D. advisor and then by the Ph.D. Program Committee, and shall be recorded on a form provided by the Committee. Courses satisfying this requirement shall be drawn from a list provided by the Ph.D. Program Committee. Courses not on this list may be submitted for approval to the Ph.D. Program Committee by the student and the advisor. *The list as approved is appended to this Policies statement as Appendix I.* The minimum average GPA in courses satisfying this requirement shall be 3.5. If a student does not achieve this GPA in the three courses s/he identifies, they may continue to take courses (within the general departmental Ph.D. program policies of how long a student may be a pre-dissertator) from the list provided until they have three (3) courses where their average GPA is 3.5.

All courses for this requirement must be taken within the doctoral student's first five semesters (i.e., two and one-half academic years) in the Ph.D. program. This coursework requirement must be completed before the student is advanced to candidacy (awarded dissertator, ABD, status).
