

**Opportunity:
Landscape Architect / Designer
Entry Level to 5 Years**

Edgewater Resources is an international leader in resilient and innovative coastal and waterfront design and engineering. We are looking for a Landscape Architect / Designer to join the team in our St. Joseph, MI office who will work collaboratively within our interdisciplinary team to provide design and production support on a wide variety of projects. Entry-Level Designers are expected to contribute in all phases of project work; from concept development and graphic production, to construction documentation and administration. Our offices in Michigan, Wisconsin and Florida provide opportunities to work on interesting projects in the Great Lakes Region as well as several locations nationally and overseas.

To learn more about the depth of our work, please go to our website:

www.edgewaterresources.com

Our St. Joseph, Michigan office is in a historic building in the heart of a beautiful Lake Michigan coastal town. To learn more about the region go to:
