

## Land Arc 397–Internship in Landscape Architecture

### Reflection Journal

This assignment, to be submitted in parts throughout the semester, requires you to document and reflect on your work experience and to make connections to curricular and professional themes. This could include some combination of drawings, lists, descriptions, and other handwritten/hand-drawn material. A simple way to think about it is to ask: What knowledge from my classes am I applying in my internship? And what new things am I learning?

Your journal entry should be no more than one single-spaced page. You are encouraged to include images, photos, drawings, field work documentation, etcetera as an appendix to the main journal entry.
