Fall 2023 Student

Welcome!

UW-Madison Land Acknowledgement

The University of Wisconsin occupies ancestral Ho-Chunk land, a place their nation has called Teejop (day-JOPE) since time immemorial. In an 1832 treaty, the Ho-Chunk were forced to cede this territory. Decades of ethnic cleansing followed when both the federal and state government repeatedly, but unsuccessfully, sought to forcibly remove the Ho-Chunk from Wisconsin.

We acknowledge the circumstances that led to the forced removal of the Ho-Chunk people, and honor their legacy of resistance and resilience. This history of colonization informs our work and vision for a collaborative future. We recognize and respect the inherent sovereignty of the Ho-Chunk Nation and the other 11 First Nations within the boundaries of the state of Wisconsin.

WUPA – Wisconsin Undergraduate Planners Association

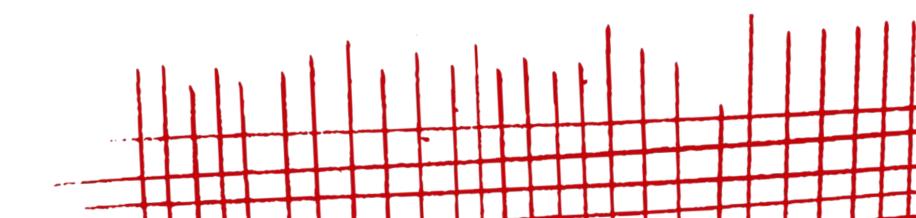

- WUPA is a new organization on campus pushing to introduce students to the
 world of urban planning, a field devoted to the development and design of the
 built environment. We encourage ALL UW students with an interest (not just
 DPLA students!) to see how the built environment plays a major role in all of our
 lives. Through a mix of social, academic, and volunteer activities, including
 environmental and social volunteering, field trips, bringing in guest speakers, and
 more, WUPA explores how we all can be a part of planning.
- Are you interested in getting involved? Reach out to wupa@dpla.wisc.edu for more information!

ASLA - American Society of Landscape Architects Student Org

Wisconsin American Society of Landscape Architects (WI-ASLA) Student Chapter is the social and professional organization run by and for UW–Madison Landscape Architecture students. For more information on the WI-ASLA Student Chapter and its events, email them at: studentasla@dpla.wisc.edu.

Earth Partnership

- Earth Partnership promotes native habitat restoration as a process for community learning and land stewardship.
- They collaborate with diverse communities to create vibrant outdoor learning spaces using a curriculum-based 10-step ecological restoration process. Through facilitated relationship-building and dialogue, communities identify their shared stewardship vision, and the ways EP can help make it a reality. Restoration education training is made available to a variety of learners through teacher professional development, youth programming, and family and community engagement.
