111 N. BAER ROAD
TREMONT, IL 61568
309-925-5277

Landscape Architect/Designer

Who we are:

Stuber Land Design, Inc. has been designing, building and managing exceptional outdoor spaces for nearly 30 years. Located in Tremont, Illinois, we provide clients throughout Central Illinois with remarkable and creative landscapes. We are fortunate to work in a small town environment while providing unmatched vision and quality work that competes with large urban markets. Please visit our website to learn more about our company at www.stuberlanddesign.com

Who you are:

You have a degree in Landscape Architecture or Horticulture with an emphasis on Landscape Design. You are creative, motivated and visionary. You have a passion for making clients' dreams come true. You would enjoy working with a small group of talented professionals dedicated to the design, installation and management of beautiful outdoor spaces.

The role:

The Landscape Architect/Designer is a key position in an award winning firm looking to the future. This position will include developing design solutions and graphic presentations along with making sales presentations to clients. A Landscape Architect or a Designer with a degree in Horticulture, would be best suited for this position. The right candidate will bring strong skills in landscape design as well as technical computer skills. The individual will be involved with client communication, project installation oversight, and providing expertise to clients and the production team. You will work closely with other designers and our installation project manager to see projects through to successful completion.

Desired Qualifications:

- Excellent communication skills with a focus on team & people
- Strong creative visionary perspective, including hardscape design & sales experience
- Time management: the ability to prioritize, assert, advocate & take action
- Knowledge of plant material
- Knowledge of hardscape materials and installation
- Experience in Dynascape or similar CAD program, Uvision or similar 3D software
- A dedicated team player

Preferred Qualifications:

- Degree in Landscape Architecture, Horticulture, or related field
- Three plus years of experience in a landscape company
- Construction experience helpful
- Ability to do take-offs and estimates
- Able to provide a portfolio of current or past design work

This is a full-time, salaried position. Health and retirement benefits available as well as employee discounts, paid holidays and paid vacation. We do not have a set closing date for this position and will consider start dates based on the applicant's requested schedule.
