

BACHELOR OF LANDSCAPE ARCHITECTURE THIRD YEAR STUDY ABROAD OPPORTUNITY

Department of Planning and Landscape Architecture | DIS Copenhagen

THE PROGRAM

During the spring semester or summer of your third year in the BLA program, set off on a trip to Copenhagen! DIS, Study Abroad in Scandinavia, offers a semester program in urban design.

"Using Copenhagen as a laboratory, solve realistic problems using analytical and design methods specifically devised for urban design and landscape issues. Some sections in studio focus on issues of human scale, temporary use, and sustainable design." - DIS Copenhagen

STUDENT EXPERIENCE

"Studying landscape architecture in Copenhagen opened my eyes as a young professional to the importance of developing a worldly perspective. Being in such a vibrant city and exploring other countries has helped me connect with different cultures and learn about their unique approaches to design and sustainability. This experience has not only boosted my skills and love for traveling but also inspired me to create spaces that genuinely resonate with the people who use them!" - Katherine Hagevik BLA '26

DIS & UW COURSE EQUIVALENCES

Satisfies Land Arc 562

- Urban Design Studio

Satisfies Land Arc 511

- GIS: Applied Climate Change Cases

Professional Focus Electives

- Biological Conservation and Biodiversity
- Citizen Science on Biodiversity and Climate Change
- Getting There: Transportation in Urban Europe
- Sustainable by Design
- Urban Ecology
- Danish Design
- Garden Art in European Culture

- Adaptive Re-use in Europe: Cities and Buildings
- Detailing and Sustainability in Scandinavian Architecture
- European Urban Experience: Why Cities Matter
- Furniture Design Workshop
- Inclusive Design in Architecture and Urban Spaces
- New Nordic Design
- Urban Exploration Photography Workshop
